

Who's who?

It takes the work of a lot of people to produce and bring your usual milk to your home. **Would you be able to say what these people do?**

- _____ Makes sure the milk and other dairy products are positioned and stored correctly at the shop.
- 1  _____ Raises and looks after cows to produce high-quality milk.
- _____ Collects the milk at the farm, makes an initial quality test, and takes it to the dairy plant.
- _____ Prepares our cows diets so they feed properly.
- _____ Supervises the production processes to prepare milk, cream, milkshakes and butter.
- _____ Helps the farmer to ensure animal welfare by looking after their accommodation, food, rest, and state of health.
- _____ Analyzes the milk to make sure everything is OK.

1. Farmer

2. Veterinarian

3. Animal nutritionist

4. Milk tanker driver

5. Lab technician

6. Dairy factory technician

7. Shop assistant
